## AMSTERDAM COLOR EXTENSION

# COLOR OVERVIEW

AMSTERDAM All Acrylics already has a colorful range, but there can never be too many colors! Upon high request from the market the color assortment of the AMSTERDAM Standard Series has been updated with several colors like Raw Umber, Payne's Grey & Phthalo Green. But it did not stop there! AMSTERDAM also extended Specialties colors with 6 pearl colors and 1 metallic color! In total there will be 10 new colors available in the AMSTERDAM Standard Series.

Next was an extension of the assortment 500ml bottles, for the heavy users. As of now all AMSTERDAM Standard Series colors will be available in: 20ml, 120ml, 250ml & 500ml, including the 10 new colors!

## **AMSTERDAM STANDARD ADDITION**

Already high in demand in AMSTERDAM Expert Series, 3 new colors will be added to the Standard Series. These are #408 Raw Umber, #675 Phthalo Green and #708 Paynes Grey, giving the range even more essential colors.

## **AMSTERDAM SPECIALTIES ADDITION**

Graphite is the new addition to the AMSTERDAM Metallics Series. Being the deepest and darkest color of this popular series, artists will doubtlessly crave to try and experiment with #840 Graphite. Its combination of brightness and darkness makes it almost a paradoxical color.

## **AMSTERDAM PEARL COLORS**

Meet the brand new Specialties range of AMSTERDAM: 6 new Pearl Colors. #817 Pearl White, #818 Pearl Yellow, #819 Pearl Red, #820 Pearl Blue, #821 Pearl Violet and #822 Pearl Green. This great addition to the assortment is similar to Standard Series acrylic colors, but boasts a unique feature: a brilliant pearlescent effect that playfully reacts to light, adding a lively and dynamic shine to your artwork.

## **HOW TO APPLY THE AMSTERDAM PEARL COLORS?**

- Apply thin layers on dark surfaces for maximum impact
- Mix Pearl Colors with a similar color to create a metallic effect.
- Add gel medium for more texture.
